PROFILE

Full Stack Developer with **2+ years** of experience in **ReactJS** and **Java Spring Boot**. Skilled in creating high-performance applications, optimizing complex systems, and employing cutting-edge technologies. Recognized for strong problem-solving, leadership, and impactful project delivery.

TECHNICAL SKILLS

Languages: Java, JavaScript (JS), TypeScript (TS), Python, HTML, CSS
Frameworks: JSP, Spring Boot, React, Angular, NextJS, Django
Database: OracleDB (SQL), MySQL, MongoDB, Firebase
Tools: Git, GitHub Actions, Jira, VSCode, Android Studio, IntelliJ IDEA, Eclipse, PyCharm, AWS, Jenkins
Security: OAuth2, JWT, Spring Security, Okta
Certification: SAE Practitioner, Infosys certified Software Developer

EXPERIENCE

Software Developer Engineer

Sep. 2022 – Present

Brillio

Bangalore, KA

- **Upgraded applications** from Java 1.8 to Java 11, improving performance and maintainability.
- **Designed and developed RESTful APIs** and microservices with Spring Boot, enhancing scalability.
- **Implemented Redis caching** to boost application performance and reduce latency.
- **Managed deployments with Docker and Kubernetes**, optimizing CI/CD processes.
- **Built advanced React applications** using Redux, React Router, and Context API for state management and routing.
- **Integrated WebSockets and WebRTC** for real-time features, enhancing user interactions.
- **Received "Star of the Sprint" and "Brilliant of the Month" awards** for exceptional performance.

Software Developer Intern

Jan. 2022 – June 2022

Amazon

Bangalore, KA

- **Developed a card-based vendor goods system**, boosting operational efficiency by 30%.
- **Increased user engagement** through EU-5 language translation, resulting in a 15% rise in interactions.
- **Implemented secure authentication** with OAuth2 and JWT, enhancing data security.

EDUCATION

Nitte Meenakshi Institute of Technology, Bangalore, KA

Aug. 2018 – July 2022

Bachelor of Engineering in Computer Science & Engineering

Graduated with 8.3 CGPA and 1st class Distinction

PROJECTS

Self-Driving Car

- * **Engineered a self-driving car system** using OpenCV for lane detection and control.
- * **Applied advanced algorithms** for edge detection and steering control with neural networks.
- * **Enhanced performance** with real-time video processing and feedback loops.

Campus Shop E-Commerce App

- * **Developed an e-commerce app** for campus transactions with secure payment integration.
- * **Created an advanced UI** and a robust backend using Spring Boot and efficient database management.
